

WOMAN • LIFE • STORY

Dear women!

We invite you to come together with other young refugee and non-refugee women and share stories in a series of **digital storytelling workshops**.

We offer 9 workshops on different topics such as friendship, music, love and many more. Women will use creativity, share experiences and learn to create photofilms in a collective process with pedagogical and artistic guidance.

We provide:

certificate for the knowledge acquired + space and experienced + care for your children + free food and drinks

The workshops will take place in Lichtenberg.

Contact us for more information and registration:
